Tips for Choosing a Topic

- Choose a topic that you feel strongly about.
- Who is your audience? Friends and family? People who know about your topic? People who disagree with you?
- What is your purpose in writing? to call people to action? to provide information on a topic? to get people to change their ways? to expose people to a new point of view?
- Can you find enough facts or examples to support your position on the topic?
- Start with a catchy title that captures the spirit of your opinion.
